

This love, just like a mountain, a plate shift
Under the surface my heart lifts and I'm worthless
Take my hand, we'll walk together through strange lands
Colliding forever we'll grow and will endeavor

Trust me baby, I'm your girl
Can you feel we're on top of the world, the world

Do you wanna be my, be my, be my girl?
Do you wanna be my, be my, be my girl?

This love, just like a heartbeat, a rhythm
Will send a vibration, it's wisdom, it's creation
So hold me, we'll walk together through strange lands
Colliding forever we'll grow and will endeavor

Do you wanna be my, wanna be my
Do you wanna be my love?
Do you wanna be my, wanna be my
Do you wanna be my love?

Trust me baby, I'm your girl
(Can you feel we're on top of the world, the world)
Trust me baby, I'm your girl
(Can you feel we're on top of the world, the world)
Trust me baby, I'm your girl

Do you wanna be my, wanna be my
Do you wanna be my love?
Do you wanna be my, wanna be my
Do you wanna be my love?
Do you wanna be my, be my, be my girl?
Do you wanna be my, be my, be my girl?
