

Fever

RAC

The heat hits and fades after the fall
Smoke in the air from where we let go it all
These undefined ways set the pace of in a blaze
So good to feel the same way

Fever
Can you feel the fever?
Feel the rush that will overtakes you
When it hits you when on fire
Fever

We hear the sounds of the dawn that
Till then we reckless speeding into the unknown
Let me hear the town, temper of your heartbeat multiplied
Only the rhythm in between us counts tonight

Fever
Can you feel the fever?
Feel the rush that overtakes you
When it hits you when on fire
Fever
Let me hear the sound
Let me draw 'em down
Let me feel the reckless speeding into the unknown
Let me feel the fire
Hearing your heartbeat multiplied
Only the rhythm in between us counts tonight

It's all this for now
There's no better way to be loved
That's the sound
Can we live inside love?
I wanna live to see the day
Let this be the prayer
Now...

Fever
Can you feel the fever?
Let me hear the sound
Let me draw 'em down
Let me feel the reckless speeding into the unknown
Let me feel the fire
Hearing your heartbeat multiplied
Only the rhythm in between us counts tonight

The heat hits and fades after the fall
Smoke in the air from where we let go it all
These undefined ways set the pace of in a blaze
So good to feel the same way
