

No One Has To Know

RAC

I can wait around for you
If I could turn myself into
A big old shady Oak tree
And sit outside your room
I feel my limbs are growing
I think I'm setting down roots

You're outside and I'm outside
No one has to know but
If you're outside, then I'm outside, we're alone

[?] for country none can take you out states
We're still within the bounders of the Milky Way
We took our time for granted
And we poured it down the drain
So we feed ourselves our memories
'Cause we training each other away

You're outside and I'm outside
No one has to know but
If you're outside, then I'm outside, we're alone

You're outside and I'm outside
No one has to know but
If you're outside, then I'm outside, we're alone

I could wait around for you
If I could turn myself into
A big old shady Oak tree
And sit outside your room
I feel my limbs are growing
I think I'm setting down roots

'Cause you're outside and I'm outside
No one has to know but
If you're outside, then I'm outside, we're alone

You're outside and I'm outside
No one has to know but
If you're outside, then I'm outside, we're alone
