

Passion

RAC

All we need is

Passion

Let the world wash over me

Expression

Keep me up, can't go to sleep

Intention

Make a light that shines forever

Make a light that shines forever

We're pieces of the universe

We made a home

It's nothing without you

Just pieces of the universe

We're living in

And it's nothing without you

All we need is

Passion

Let the world wash over me

Expression

Keep me up, can't go to sleep

Intention

Make a light that shines forever

Make a light that shines forever

Just pieces of the universe

We're living in

And it's nothing without you

All we need is

Passion

Let the world wash over me

Expression

Keep me up, can't go to sleep

Intention

Make a light that shines forever

Make a light that shines forever
