

Fall Right Out Of Love

Rachel Chinouriri

We were just in love back then, remember
We had nothing else but ourselves to lose
Maybe it's the thought of seeing you with another
But I wish that you'd be better for yourself

There's something you should know
Sorry that I have to let you go

It's better for what's left of us
I might have to trust
If I don't leave now then
Maybe we will fall right out of love

How did I withstand your loose endeavours?
What is it you planned for me to do?
When the water's still, you'll just find someone to uncover
That you are made for another besides myself

There's something you should know
Sorry that I have to let you go

It's better for what's left of us
I might have to trust
If I don't leave now then
Maybe we will fall right out of love
Maybe we will fall right out of love
