

# So My Darling

Rachel Chinouriri

Marcus, I hope that our memories stay  
And just know that whatever you do  
I hope you love me too  
And my heart beats  
Stuck in a daze of our thoughts  
And watching me grow to be you  
I hope you love me too

So my darling, so my darling, so my darling  
When our hairs are turning grey  
Won't even remember our younger days  
So my darling, so my darling  
My baby, my boo  
You are my best friend, you are my best friend  
Remember I'll always love you  
You

And I, la-la-la-la-la-la-la-la-la-love you  
And I, la-la-la-la-la-la-la-la-la-love you

Remember the first day we met it was you  
Talking to miss and I came and saved you  
Then our friendship just suddenly grew  
Started talking and then it all blew  
Then we went down our separate ways  
Felt really empty and everything changed  
We reunited and it felt just the same  
Now we love in a different way

So my darling, so my darling, so my darling  
When our hairs are turning grey  
Won't even remember our younger days, so  
So my darling, so my darling  
Baby, my boo  
You are my best friend, you are my best friend  
Remember I'll always love you  
My, my, my

I'll always love you, yeah  
And I, la-la-la-la-la-la-la-la-la-love you

So my darling, so my darling, so my darling  
When our hairs are turning grey  
Won't even remember our younger days  
So my darling, so my darling  
My baby, my boo  
You are my best friend, you are my best friend  
Remember I'll always love you
