

First Day

Rachel Platten

I don't love you when you're making bags of cash
Anymore then, when you try and finish last
But I love you for the way you make me laugh
How you hold me when I'm sad
You think you've failed me, but I've failed more times than that

And you were there for me
So I'll be there for you
'Cause you were there for me

I still see you how I saw you on the first day that we met
There's a light that's in your eyes and I know it ain't gone out yet
So don't you worry, baby
I'm still your baby
I still see you how I saw you on the first day that we met
Oh yea
Oh yea
Oh yea
Oh yea

I don't love you when you've gotten all your dreams
Anymore than when you're crying on your knees
But God, I love you 'cause you make me feel so safe
I wish you weren't so ashamed
You think you messed up, but babe, I've made worse mistakes

And you were there for me
So I'll be there for you
'Cause you were there for me

I still see you how I saw you on the first day that we met
There's a light that's in your eyes and I know it ain't gone out yet
So don't you worry, baby
I'm still your baby
I still see you how I saw you on the first day that we met
Oh yea
Oh yea
Oh yea
Oh yea

I still see you how I saw you on the first day that we met
There's a light that's in your eyes and I know it ain't gone out yet
So don't you worry, baby
I'm still your baby
I still see you how I saw you on the first day that we met
Oh yea
Oh yea
Oh yea
Oh yea

I still see you how I saw you on the first day that we met
