

Something In The Air

Rachelle Ann Go

I wanna feel you breathin' beside me
I wanna have you in my life
I cannot tell you why
It's something I feel so deep inside

I wanna feel the sound of your laugh
I wanna know what you're doin'
I know there's something more to believe
Don't know what it is haunting me

Feel it everywhere
'Cause it's something in the air
I can't tell you how but I feel it rushin'
Me now it's something in the air

It's hangin' inside the air all around me
I wanna follow my intuition
I cannot touch what I cannot see
It will be ours eventually

We could be floartin' on the horizon
Falling through space and hearing
The silence it's all around from heaven to sea
Wrapping it's arms around you and me
