# Don't Hold Me Down

**Racoon**

You can tell me to breathe
What to say when I talk
Climb on my bike
You slide down my neck
Or use my face for a walk

You can tell me to smile
You can make things worthwhile
Need slap as I cry
Probably laugh as I try
To figure it out what you're smiling about

Send me straight off to hell
To find a story to tell
And you know that I will
Make my life with my while
Give me a reason to smile
And you better hurry and I hope that you will

But don't ever hold me down
But don't ever hold me down

Choose your life it's your choice
To fall asleep with the noise
Yell at me and the guys
When it's been one of those nights
He probably erate

When you open your mouth
The pretty words do roll out
You point your finger at me
You've seen the worst I can be
I hope you know what that means

Send me straight off to hell
To find a story to tell
And you know that I will
Make my life with my while
Give me a reason to smile
And you better hurry and I hope that you will

But don't ever hold me down
But don't ever hold me down

Not the talk could have kind
And yesterday is behind
I believe that it's better that way

Send me straight off to hell
To find a story to tell for you to go there
And you know that I will
But don't you step on my brain
It drives a man insane
And it's nothing to be laughing about
I got nothing to prove
I'll be the fool for you
If there's anything I'll help you out

But don't ever hold me down
Don't you ever hold me down
You've got you've got nothing to hold me down
Don't ever hold me down
