

# It Is What It Is

Racoon

One way or the other way  
Things will come around one day  
They might blow up in your face  
Or it turns out you'll be rich one day  
Yeah, that's what mama told me  
Stop lying through your teeth  
They'll all see through you one day  
You're acting all cool and mean  
But you look like a hot air balloon to me  
Yeah, that's what mama told me

But what if we miss?  
It could be right around the corner  
What we're gunning for  
It is what it is  
If it's love you're looking for  
There's so much you don't know

So what are we waiting for?  
And what are we looking for?  
If it ain't love that we adore  
Then what are we waiting for?  
So what are we waiting for?  
And what are we looking for?  
If it ain't love that we adore  
Then what are we waiting for?  
What the hell are we doing it for?  
And who is it for?

Dove straight into trouble again  
Thinking I should prove how to be a man  
Fight, drink, [?] galore  
Well, mama never gave a damn, I'm sure  
Oh, hell, I used to be sure  
You stopped trying to annoy everyone  
You don't have to prove yourself, my son  
Just be you, yeah, that's the one we love  
That's the one we need, the one we want  
Yeah, that's what mama told me

But what if we miss?  
It could be right around the corner  
What we're gunning for  
It is what it is  
If it's love you're looking for  
There's so much you don't know

So what are we waiting for?  
What are we waiting for?  
If it ain't love that we adore  
Then what are we waiting for?  
What are we waiting for?  
Tell me, what are we looking for?  
'Cause if it ain't love that we adore  
Then what are we waiting for?  
What the hell are we doing it for?
