

## Spit Your Heart Out

Racoon

Spit your heart out  
Just be careful what you say to me  
In the long run

It blows up in your face you see

They're all so friendly  
They don't know the names of you and me  
Well let them talk out loud, real loud  
If they wanna talk so loudly

But I'm not going to keep those secrets away from you  
I'm not going to keep those secrets away from you  
I want to walk the tide go pass me down

Spit your heart out  
Just be careful what you say  
'Cause in the long run  
It will blow up eventually

They're so friendly  
They will never even know your name  
Have to watch it serious  
And tell me why do they control the game

I'm not going to keep those secrets away from you  
I'm not going to keep those secrets away from you  
Tomorrow takes to long

Don't wanna walk the path that goes through the day  
Don't fool us much to long  
It's hard to keep a secret nowadays  
So tired every secret sails away

Just be careful what you say  
Spit your heart out  
Just be careful what you say

I'm not going to keep those secrets away from you  
I'm not going to keep those secrets away from you
