

Young And Wise

Racoon

Princess young and wise you are
Getting ready to be a star
But you already are to me

Keep you safe, court the door for you
All protect you from the fools
And the crazy things you one day may do

All in good time
All in good time
All in good time

If it turns up you're just like me
Count to ten, baby, one, two, three
But if you're stronger than your on
Help the weak when they needed safe
Stay safe when the wind is weak
Without you I'm nothing, I'm no one

All in good time
All in good time
All in good time

All in good time
All in good time
All in good time
All in good time
All in good time
All in good time

Princess young and wise you are
Getting ready to be a star
You'll always be a star to me
