

## Futures

## Radiation City

You came you saw your video  
Your video  
The video of when you were a little one  
Little one  
A little one  
They came they saw and everyone  
Everyone  
Everyone they made you feel really small  
Really small  
A really small

Dancing on a screen  
Making fun of a million things  
Tell me not to cry  
But I know that I had to try

You were my lie  
You were my lie

You came you saw your video  
Your video  
The video of when you were a little one  
Little one  
A little one  
They came they saw and everyone  
Everyone  
Everyone they made you feel really small  
Really small  
A really small

Summers were happy  
(Summers were happy)  
When they were easy  
(Easy)  
Never could listen  
(Never could listen)  
Echoing the thunder  
Thunder

You were my lie  
You were my lie

You came you saw your video  
Your video  
The video of when you were a little one  
Little one  
A little one  
They came they saw and everyone  
Everyone  
Everyone they made you feel really small  
Really small  
A really small
