

Theres no other way
Ooh no
You were born to meet your make(r)
And be mine
Everything to come
Is clear from where it came

The first kiss of genius
Who wrote down
A hot hand
And in reaction
Ripped holes in time
Yours is mine
Oh

I can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be you

Everybody's evil
Can belie
Hurry up and make your way
It's a good play in our side
I want to be bad for me

A last kick of genius
That touched on
A pale horse
And in reversal
Turn 6 to 9
Seas to wine
Made oceans lie
Sure as yours is all mine

I can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be you

Everything for only mine
Mine mine

I can't be you
Honey come make up your mind, oh
I can't be you
Honey come make up your mind, oh
I can't be you
