

# Milky White

Radiation City

Theres no other way  
Ooh no  
You were born to meet your make(r)  
And be mine  
Everything to come  
Is clear from where it came

The first kiss of genius  
Who wrote down  
A hot hand  
And in reaction  
Ripped holes in time  
Yours is mine  
Oh

I can't be you  
Honey come make up your mind, oh  
I can't be you  
Honey come make up your mind, oh  
I can't be you

Everybody's evil  
Can belie  
Hurry up and make your way  
It's a good play in our side  
I want to be bad for me

A last kick of genius  
That touched on  
A pale horse  
And in reversal  
Turn 6 to 9  
Seas to wine  
Made oceans lie  
Sure as yours is all mine

I can't be you  
Honey come make up your mind, oh  
I can't be you  
Honey come make up your mind, oh  
I can't be you

Everything for only mine  
Mine mine

I can't be you  
Honey come make up your mind, oh  
I can't be you  
Honey come make up your mind, oh  
I can't be you
