## Radical Something

How do I get out of here?  
Back to where I belong  
California, California, baby I'm coming home

I need some fun vibes and a couple drops of sunshine  
Good enough pick and choose the always over sometimes  
Pour a little out we like to live a lot  
And I make better decisions when I'm hot  
We're chasing dreams from our seats at the hang out spot  
No plan for the night, but we all stay locked  
Right in, nice grin, uh uhhh no thunder or lightning  
Just the view of the ocean and a sexy ass light skin girl  
I'm goin back, I'm goin back  
And I'm headed for my paradise, my paradise  
Where I can sit and right songs, eat a little food and we can share our lives  
California got me thinking I should really take it easy  
Out back with my crew and some girls if you need me  
So when I say welcome home and you ask what do I mean  
I mean you visit and you never wanna leave Come find me

How do I get out of here?  
Back to where I belong  
California, California, baby I'm coming home

Oh yeah  
So sweet, so sweet Californ-I-a  
Where the fruits all fall from my family tree  
I need my skateboard a drink and a long stretch of pavement  
Pickin up my pace and I'm back to the basics  
Yeah, travel well on my element, gone for a second and  
Every time I leave you know I'm always second guessing it  
Thinking ill regret it but you know I'm comin back in the end and I've accepted it  
I'm feeling feeling all feeling all feeling all feeling all golden  
We're skatin on the sidewalk  
And you can hear us all hear us all hear us all rollin  
It's so damn hot outside  
And missed flights are the only things that stoppin me  
From tryin to kick it tropically  
Cuz out here we don't just own the sun  
Us California kids got a monopoly  
Lets go, come on

How do I get out of here?  
Back to where I belong  
California, California, baby I'm coming home

I'm coming home I'm coming home  
Cuz I been gone for way too long  
I'm coming home I'm coming home  
Cuz I been gone for way too long

And these Cali girls Cali girls Cali girls Cali girls  
Are all just so damn fine  
And these Cali girls Cali girls Cali girls Cali girls  
Runnin through my mind

And these Cali girls Cali girls Cali girls Cali girls  
Are all just so damn fine  
And these Cali girls Cali girls Cali girls Cali girls  
Runnin thru my mind
