

Down South

Radical Something

Now where I come from
my everyday day to day is just a skate away
And you could smile, if you learn to put your pain away
Los Angeles streets are scandalous things
That's why I'm focused on my tan at the beach
Long live the scene, but I don't need bong hits of green
To discover that my mind is full of all different things
Live feed coming straight from IV
Where my crunchy tight strings bring the summertime heat

Forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow
I said, forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow

Everybody's talking from long beach to the bay
Gonna free my spirit cruising down the PCH
And I got a good girl that loves me like a lady should
So I put 'em up to a life that treats me right
Throw 'em back cuz it's all good
Okay, okay, you know what we're doin' today
Okay, okay, do the same damn thing tomorrow

Forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow
I said, forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow

Baby I try sometimes
Oooh ooh ooh ooh
To paint a picture with a sky that's blue
Oooh ooh ooh ooh
Baby I try sometimes
To show you why, why you should live your life
And love what you doooooooooo ooh yeah

Forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow
I said, forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow

Forget what you're worried about
That's how we do it down south
Cuz you know we're gonna chill today
And we're doing it again tomorrow

doing it again tomorrow
I said, doing it again tomorrow
