

Gonna Be Good

Radical Something

Gonna be Good, good
Gonna be good, good (It's all good now, its all good now)

Gonna be Good, good (You bring me to a place)
Gonna be good, good (When you look at me that way)

It's all good, all gravy wouldn't trade it if you payed me
I been stressing for a while, that smile that you gave me
Just melted me away and saved me from the pain
And changed the world around me for the day
(Gonna be good)
You brought me to a place
And now I can say

Gonna be Good, good
Gonna be good, good (It's all good now, its all good now)

Gonna be Good, good (Bring me to a place)
Gonna be good, good (Look at me that way)

All good oh baby and were chilling more than ever
Just being in your presence got me feeling much better
I know nothin lasts forever
At least we got this lifetime of love to get lost in together
(Gonna be good)
You brought me to a place
And now I can say

Gonna be Good, good
Gonna be good, good (It's all good now, its all good now)
Gonna be Good, good
Gonna be good, good (It's all good now, its all good now)

So bring me to a place
Look at me that way
Look at me that way
Gonna be good, good
Gonne be good, good
It's all good now, it's all good now
