

Radio

Radical Something

I'm driving down the coast line
Riding with my windows down
I can't complain, cuz life is good
But man I wish I was on the Radio
I wish I was on the Radio
I wish I was on the Radio

I said I'm leanin out the window
Watching the ocean meet the sky and mix the colors of blue
Rollin down the PCH about to lull myself to sleep
Because the road is so smooth
Were hoping one day that you'll be hearing us
Top spot on your favorite show
We'll turn the volume up so we can dance
When our song's on the radio

I'm driving down the coast line
Riding with my windows down
I can't complain, cuz life is good
But man I wish I was on the Radio
I wish I was on the Radio
I wish I was on the Radio

Welcome to summer time
Go to work another time
Well blast the music out as we cruise
Thinking damn man
Wouldn't it be sweet if the station was playing our tunes
I know that one day you'll be hearing us
Top spot on your favorite show
We'll turn the volume up so we can dance
When our songs on the radio

I'm driving down the coast line
Riding with my windows down
I can't complain, cuz life is good
But man I wish I was on the Radio
I wish I was on the Radio
I wish I was on the Radio

We're driving and were never lookin back
When we listen to the Radio

I'm driving down the coast line
Riding with my windows down
I can't complain, cuz life is good
But man I wish I was on the Radio
I wish I was on the Radio
I wish I was on the Radio

Said I would do anything
To be on the radio
I wish I wish I wish
One day One Day one day
One day One Day one day
