

# Valentine

## Radical Something

You're the best, you're amazing  
Darling everyone knows  
But there's a time for everything,  
And for now I gotta be alone.  
I wish the answer was in front of me  
But girl I just don't know,  
How I let your heart fall and shatter on the floor.

Flowers die and we all move on,  
The last gift that you'll get is this song.  
No chocolate hearts and no candy kisses,  
Don't come looking when I'm missin'

Girl you know it's hurting me as much as it hurts you  
So I said to her:

Valentine we ain't doin' what we used to used to do,  
Love don't feel the same with you.  
Valentine girl you might just have to cut me cut me loose,  
But here's a toast to me and you.

And X marks the spot  
Where I stand with my hands in my pockets  
mad at the love cuz we lost it  
the flame and the fire, well you say you hate liars  
so why crucify when I say that I'm tired  
such a tough girl and your lovely too  
you care about your school, but what sucks is true  
you gotta cut me loose don't touch me boo  
you wanna reinstate it all but I must refuse

Flowers die and we all move on,  
The last gift that you'll get is this song.  
No chocolate hearts and no candy kisses,  
Don't come looking when I'm missin'

Girl you know it's hurting me as much as it hurts you,  
So I said to her:

Valentine we ain't doin' what we used to used to do  
Love don't feel the same with you  
Valentine girl you might just have to cut me cut me loose  
But here's a toast to me and you

Love oh love it's a crazy thing  
It can tear you down and it can make you weak  
Love oh love don't you get mad at me  
Because we had a beautiful thing.

So I said to her:

Valentine we ain't doin' what we used to used to do  
Love don't feel the same with you  
Valentine girl you might just have to cut me cut me loose  
But here's a toast to me and you

Valentine we ain't doin' what we used to used to do

Love don't feel the same with you  
Valentine girl you might just have to cut me cut me loose  
But here's a toast to me and you
