

We Are Radical

Radical Something

We are radical, yo
We are radical, yo
We are radical

I've been schlepping here for way too long
Trying to test my luck until everything is gone
No love is not a problem cuz it's all I want
I'm still sleeping on an orange couch like a vagabond
Like a vagabond
Like a vagabond

Yo, funky bumpin Radical Something
You add us all up and we equal nothing
Coming to your town and we may never leave
The sound is so sweet turning fans into fiends

I'm not a big time rich guy, I'm just trying to get by
Living off a whole lot of nothing
I'm not a big time rich guy, I'm just trying to get by
Cuz we are radical, we are nothing
We are radical, we are something
We are radical, radical something
We are radical, we are something
Add us all up and we turn into nothing

iPod in my pocket, my headphones loud
Remind me why I hum out all these sounds
A-list melodies, I finally found my soul
There's a time for dress up, for now take off your stilettos
Your stilettos
Your stilettos

I'm not a big time rich guy, I'm just trying to get by
Living off a whole lot of nothing
I'm not a big time rich guy, I'm just trying to get by
Cuz we are radical, we are nothing
We are radical, we are something
We are radical, radical something
We are radical, we are something
Add us all up and we turn into nothing

I'm not a big time rich guy, I'm just trying to get by
Living off a whole lot of nothing
I'm not a big time rich guy, I'm just trying to get by
Cuz we are radical, we are nothing
We are radical, we are something
We are radical, radical something
We are radical, we are something
Add us all up and we turn into nothing
