

Any Way That You Want Me

Radio Company

Oh I'll be anything you want
Beyond need to hide away my fault

I'm here for you, here for you now
Here for you, now

I'll pretend that all of this is new
Seal away the truth
Any way that you want me
Take the place of all I held onto
Steal away with you
Any way that you want me

Oh and time can find a way to go
Never say I was never there before

I'm here for you, here for you now
Here for you, now

I'll pretend that all of this is new
Seal away the truth
Any way that you want me
Take the place of all I held onto
Steal away with you
Any way that you want me

Tried to tie things to those times they tell
And you know
When we wonder which way we went wrong
All wrong
It ain't wrong
No

You want me to come 'round and let 'em out
All the things you tried to forget about
You want me to come 'round and let 'em out
All the things you tried to forget

But I'm here for you, here for you now
I'm here for you, now

I'll pretend that all of this is new
Seal away the truth
Any way that you want me
Take the place of all I held onto
Steal away with you
Any way that you want me
