

Right Kind Of Trouble

Radio Company

Tell me baby
Tell me what's been goin' on
Seems that maybe
Something, somewhere went wrong
Cause I come a runnin'
Whenever you call
Nothing ever adds up at all
You're the right kinda trouble

What's that lady
Some kind of black magic love
Slow down baby
Before you fall from above
Don't be so hard on me
Or ever leave me alone
You're the right kinda trouble
The right kinda trouble

It's not if but when you're gonna go (whoa-oh)
By the time you leave well we both know
Who and what we are

It's not if but when you're gonna go (whoa-oh)
By the time you leave well we both know-oh-oh-whoa!

You're the right kinda lover
You're the right kinda trouble for me

And I want and I need it
Ever my place I be
When I beg and I plead, fall to my knees
But you just won't break at all
You're the right kinda lover
Right kinda trouble for me

You're the right kinda lover
You're the right kinda trouble for me

You're the right kinda lover
You're the right kinda trouble for me

You're the right kinda lover
You're the right kinda trouble for me

You're the right kinda lover
You're the right kinda trouble for me

You're the right kinda lover
You're the right kinda trouble for me
