

Cut A Hole

Radiohead

Wish that I could come out of your phone
Superhero powers
Burst out of the sound
And I bought you flowers
You just say the word
I could wish she comes
With a long and winning handsome smile
Wish we could connect
Step into the void
Off the diving board
Blend into the light
Down the cable lines
Roll onto the earth
Reforming on the wind
Two places at once
Taste the air with you
Undo all the ties
Wish that I could flick on all those lights
Lift this all away
See that stretchy smile go
Right across your face

Cut a hole
Cut a hole
Cut a hole.
