

Upside Down

Radiohead

Lie for the Jews
And I'm more like them
But I don't give a d___ about that
Cause being with you
Is like being too drunk
Being a little ill fallen down flat

Lopside down
Upside down
With you I am drunk again
Waiting for a word from you
I knock me down with spinning around
Like you hang through complete

Laugh in your bed, give me all this world
But I don't give a d___ about that
I wanted your mind ever since you looked at me
Since you really like music like that

Lopside down
Upside down
With you I am drunk again
Waiting for a word from you
I knock me down with spinning around
Like you hang through complete

Can't stop loving you
