

Hard Light of Day

Radney Foster

Baby, it's safe here
Girl, I believe we're falling like stars
No secrets, no shadows
We can just let go and be who we are
Light up the night with sparks

From deep in the dark to the hard light of day
You know my heart is yours to bend or break
So carry it easy, sexy, gently, crazy
Baby, it's up to you
I'm in for as long as it takes
From deep in the dark to the hard light of day

Why don't you stay here, the longer we lay here
The night'll unwind us
Tangled in covers, so lost in each other
That no one can find us
It's alright to let love hide us

From deep in the dark to the hard light of day
You know my heart is yours to bend or break
So carry it easy, sexy, gently, crazy
Baby, it's up to you
I'm in for as long as it takes
From deep in the dark to the hard light of day

So carry it softly, sexy, wild and crazy
Baby, it's up to you
I live for the love that we make
I'm in for as long as it takes
From deep in the dark to the hard light of day
