

## Second Chances

Radney Foster

Your first love bit down hard  
It's scary how much that hurts  
He skipped town and left the pain in charge  
And your closet full of his shirts  
Reminders to pull at you  
Of things you should let go

God's been sending second chances your way, baby, but you can't  
see  
I'm here standing, heart wide open  
Hoping love makes you believe  
You could need me  
You could need me  
For a second chance

There's no song sad enough  
To help the way you feel  
You're waiting for time to change  
What only love can heal  
I don't have all the answers  
But one is all we need

God's been sending second chances your way, baby, but you can't  
see  
I'm here standing, heart wide open  
Hoping love makes you believe  
You could need me  
You could need me  
For a second chance

I can circle back around, circle back around  
Until your faith is found  
I can circle back around  
Circle back around again

God's been sending second chances your way, baby, but you can't  
see  
I'm here hoping, heart wide open  
Prayin' love makes you believe  
You could need me  
You could need me  
For a second chance
