Never to become myself and I was just afraid of you
Follow me, just follow me tiny stars went through my head

Never to become yourself and your were just afraid of me
Swallow me, just follow me I always wanted to become you

"Hello!" my friend's gotta boyfriend and sh's
"Oh no!" she's going for another one lady

"Yell out!" that's what I said to her but she goes now
"Chill out!" what does that monogamy means to you baby?

Say that I'm the one who you were searching for
Never say that you have speres of plenty of more
Be the only one and soon the time will come
This question of the clone'll be wasted

Never to become myself and I was just afraid of you
Follow me, just follow me
Tiny stars went through my head

Never to become yourself and your were just afraid of me
Swallow me, just follow me
I always wanted to become you

"Chill out!" what does that monogamy means to you baby?

Say that I'm the one who you were searching for
Never say that you have spheres of plenty of more
Be the only one and soon the time will come
This question of the clone'll be wasted

Never to become myself and I was just afraid of you
Follow me, just follow my tiny stars went through my head

Never to become yourself and your were just afraid of me
Swallow me, just follow me. I always wanted to become you

I cried but I liked it
Words that shake my lachrymal glands
The kind of sound that pierces my eardrums

But nothing was different
Just hundreds of millions of words
Weren't enough to reflect me
There wasn't the one color I wanted to show

Who created this body of mine?
Where are my true words?
I was looking to guess my name
No, I got that already - I think?

But when you and I and all the words
From our hearts overlap
Among all those words, for me the only thing
That makes sense is that I am born

Never to become myself and I was just afraid of you
Follow me, just follow me
Tiny stars went through my head

Never to become yourself and your were just afraid of me
Swallow me, just follow me
I always wanted to become you

"Hello!" my friend's gotta boyfriend and sh's
