All detour life
All detour
Nevertheless nevertheless
Look for shortcuts
Turn around in circles so you almost can't find it
In the final end, pray
A little comfort for humans
Impossible to find objection
Sarcasm
Warp
Extremity of the beast
I take refuge in Amida Buddha

Namely born at that entrance
Then everyone will die at the exit
What I'm living is a detour for sure
Life itself is a long killing time
Yet, why strive to be first
Toward the exit and without knowing where
Every day to find yourself a way out
The extraordinary bitter test at the end
If you want a shortcut right there
In two to three lines

Na... within this city
Yeah yeah yeah yeah yeah
Mon... do not dialogue
Yeah yeah yeah yeah
Ma... within this city
Yeah yeah yeah yeah yeah
Don... and count backwards
Yeah yeah yeah yeah
Yeah yeah
Yeah

The technology that we treasure
Ecology for a new life
Protect the great child
Now for a spectacular future emergency
What dumb-ass thing
I'm embarrassed by this dream-like feeling
Hi I have written the trees future life
Honor it more than anything else on this planet, but it's needless

What are you getting at?
Shut up already
What did you say happened?
I don't give a damn
It's ok if I do
Yo-heave-ho, do you want to fight?
Do not divide it yet
Do not throw away that beautiful body
The thousand needles knock

Na... within this city
Yeah yeah yeah yeah yeah
Mon... do not dialogue
Yeah yeah yeah yeah
Ma... within this city
Yeah yeah yeah yeah yeah
Don... and count backwards
Yeah yeah yeah yeah
Yeah yeah
Yeah

So I no longer got out, see you, bye-bye
My wish did come true, wohoo
Angry over a fist fight, yes yes
It's greeted with great joy, bye-bye
Why did you cry so earnestly?
How about one or two? alright, well thank you

Na... within this city
Yeah yeah yeah yeah yeah
Mon... do not dialogue
Yeah yeah yeah yeah

So if you like crying with leaflets
Just spin the chestnut dada
Stood up again many times
As a scattered pine
