We're so courage that we can put away yesterday's dream and laugh
and make today's oath before sleeping
However, we sometimes put away today for the sake of yesterday's dream
and try to make old and someday's myself stand on winner's plat form

We're so sensitive that we wear down our antennas everyday
and we're used to be hated. No, it's a n obvious lie
Skills to be loved are tied around even a murderer's, or a prime minister's
DNA
When their mothers send them off

Dream plus dream. Selfish
Dream plus love. Kindness
Dream plus voice. Come true
When you add them up, please remember

Non-stopping girls running boys he'll be there for all of you
Shout it out born it out yeah whatever hungry
Blue Yellow green purple dream scramble egg, vanilla frost
Running tears scars tissues and insanity as well

We're so talented that we represent the earth also today
Whether one ran as a candidate or chosen by someone isn't a problem. We're d
ictators unanimously
Even sensations and tragedies are artificial things made by ourselves
Self-praise, suicide bombing, accidents. Hey, pleas clap your hands and laug
h. However

Don't worry. You might be trying to tame your 'loneliness' now,
You don't have to be worry, because our parents were all popular
Since they have made loves for 4.6 billions years constantly,
we were finally born in this world

Dream plus wings. It reaches
Dream plus seed. withered
Dream plus lie. hit
When you add them up, you'll realize soon

Non-stopping girls running boys I'll be there for all of you
Shout it out born it out yeah whatever hungry
Blue Yellow green purple dream scramble egg, vanilla frost
Running tears scars tissues and insanity as well

Don't stop, rain of destiny
Don't pick of the scab of love

(Non-stopping girls running boys he'll be there for all of you
Shout it out born it out yeah whatever hungry
Blue Yellow green purple dream scramble egg, vanilla frost
Running tears scars tissues and insanity as well)

Though I've not lived enough long to understand so many things, but I decide
d not to give up
It was a close oath, not disposable one
It's lacking and boring, but It's so fantastic that I can't quit
I want to find such a nameless future. Such a bitter wish

Sadness plus kindness equal peace
Peace plus pain equal anger
Anger plus warmth equal tear
Tear plus tear equal dried-up

If I add a heart to the voice, words are born
If I add a love to the words, immediately
Ah, if I add up everything and divide by us,
The world is made
