RADWIMPS

All these words are meant to be so what?
All these hates are said to me so what?
All these words are meant to be so what?
All these hates are said to me

Deai fureai kokoro kawashiai ima no boku ni muketa kakegae no nai
Fukai aijou subete o wasureru kotonaku toki to tomoni boku no saga ni sasaya
ku
Dakedo naze? tanjun ni shinu made kono yoni nani mo ataezu shinero wake?
Konna ore nara warai nagara dekai koto de yaku ni tatteyaru kara

You never see the lights that shines behind your eyes
Although it's brighter than the brightest sun
But you never turn around to see how it shines
You never know why you can see it in your eyes
Why these words coming out of my mind
You never know what keeps me high in these nights

I might fall into pieces with all my compensates
But there's one thing I've learned

There's no such thing as fear
(What for do I live? What can I do?)

I said I just don't have to be me
I mean you just don't have to be you
I guess I wanna be the man who's never born

I said I just don't have to be me
I mean you just don't have to be you
I guess I wanna be the man who's never born

Yume miru tame ni ikiteru wakejyanai
Hokani ikuramo surukoto arujyanai
What for do you ask □What for?□?
Nakushita junsui sa kakushita heibon sa sagashiteta furi shiteta dake nande

Why do I live? What can I be?
Fuhen no jinsei no teemu o fumen ni nosete utau keredo
What for do you ask? What am I?

I said I just don't have to be me
I mean you just don't have to be you
I guess I wanna be the man who's never born

I said I just don't have to be me
I mean you just don't have to be you
I guess I wanna be the man who's never born

They'll never say all these words are meant to be
They'll never say all these hates are said to me

I said I just don't have to be me
I mean you just don't have to be you
I guess I wanna be the man who's never born

I said I just don't have to be me
