

# Lights Go Out

RADWIMPS

Lights go out and night goes in  
I wonder why the stars won't blink  
While I'm asleep, will you be awake?  
And keep an eye on the sky  
So they might sneak in the night  
Sneak in your heart

You said you never wished upon a star  
Cause they're too far to trust  
It's not a distance you don't even trust  
Your mouth 5 inches away  
Goodbye tomorrow  
Good night, "hello"

Whoever now is knocking on your door  
Is what you truly hope to owe, I'll fly like you  
Here's a promise, I'll fly like you

You said you never wished upon a star  
Cause they're too far to trust  
So how close should I be standing  
When I'm about to make my confession to you?  
I do love you  
How did it make you feel?

Whoever now is knocking on your door  
Is what you truly hope to owe, I'll fly like you  
Here's a promise, I'll fly like you  
Whoever now is knocking on your door  
Is what you truly hope to owe, I'll fly like you  
Here's a promise, I'll fly like you  
Whoever now is knocking on your door  
Is what you truly hope to owe, I'll fly like you  
Here's a promise, I'll fly like you  
I'll fly like you
