

# Mountain Top

RADWIMPS

'Obey the way you truly believe'  
'Don't let others rule over you'  
Life will never be that easy with bag full of  
All your Ancestor's lessons

I'm alone on a mountaintop  
Nobody can answer me or none of them can follow me  
But you climbed up high to the sky above  
How do I look from your place right now?

Some might compete their bravery  
They carry around in nicest box  
Be careful not to forget the right way to open it up  
Or you'll miss when you need it then  
You should keep it next to your soul

I'm alone on a mountaintop  
Nobody can answer me or none of them look straight at me  
You climbed up high to the sky above  
How am I supposed to hide my pride?

I'm a dreamer, I'm believer, no surrender  
Don't even know way turning back

Let's go deeper, let's go higher, show me your ego

'Obey the way you truly believe'  
'Don't let others rule over you'  
Life will never be that easy but hey descendants  
Guess that's all I could say to you  
All the rest is now up to you
