RADWIMPS

I wish that I could only sing this in the rain  
Cuz I know for sure that this'll make me cry again  
I never imagined that this song was about a pain  
But I'll try my best and I shall make it to the end

I wish that I could sing a song that you'll be touched  
For that I guess vocabularies I have isn't as much  
But I hope you'll feel something no matter if it's a stitch  
I know you hate sympathy but please give me an inch

Cuz it's all because of you  
Cuz it's all because of you

I wish my name were something like 'Darling or Dear'  
Then every time you call my name we'd be as if we're pair  
I know for sure my brain is need to be repaired  
I'm afraid to say but you're the one who made me a hare

And it's the only I can be  
It's the only life I can live

I wish that I could be the laces on your shoes  
Then I'll trust you I'll never let you stumble and make you a b  
ruise  
I wish that I could only breath in front of you  
Then I guess I'll just have to turn my life for you

I wish that I could play the music that you'll like  
I wish that I could play the role within your life  
I wish that I could write the lyrics that you'll love  
I wish that I could be the emblem of your love

I wish that I could only sing this in the rain  
Cuz I know for sure that this'll make me cry again  
I never imagined that this song was about a vain  
But I'd tried my best I can do...
