I watch the path that my shaking feelings will follow without saying anything

The reason why the words are just always useless is that the reason to hold those hands are missing

Look at me before the memories start to shine  
You don't have to say those withered words anymore

This earth spins me round today too  
I hold on tightly so I don't fall off

The thing that I grabbed onto were your small hands  
I grasp them tightly pretending to protect them

Look at me before the memories start to shine  
Please if anything just hold on to those shaking hands

All of the mystics and existants will make you bring upon  
You'll never notice but you're always going to come back for more

Look at me before the memories start to shine  
Yes, the hands that were shaking were mine
