

Skyscraper Love

Rae Morris

Thank God our love helps me to levitate
Or how would I, how would I plant kisses on your face?
I need a crane some days when my neck aches
But here am I, here am I with both my arms around your waist

I look up and you are there
Towering, skyscraper love
Bigger than everything
Us in the clouds, skyscraper love
Tip-toeing up to you
Bursting through, skyscraper love
Nothing comes close to us

Your eyes on mine in such a loving way
They light the skies, light the skies
Headlights from a plane
The thought of me without you by my side
It forces tears down my cheeks when I don't wanna cry

I look up and you are there
Towering, skyscraper love
Bigger than everything
Us in the clouds, skyscraper love
Tip-toeing up to you
Bursting through, skyscraper love

Nothing comes close to us
Nothing comes close to us
Nothing comes close to us
Nothing comes close to us
Nothing comes close to us
(Nothing comes close to us) We're the red lights flashing at the top of the sky
(Nothing comes close to us) And you fear the end when you get so high
(Nothing comes close to us) There's no use worrying, but I can't lie
(Nothing comes close to us) You make me feel like I never wanna die

Towering, skyscraper love
Bigger than everything
Us in the clouds, skyscraper love
Tip-toeing up to you
Bursting through, skyscraper love
Nothing comes close to us
