

Keep God First

Rae Sremmurd

(Yung Lan on the track)

Kept me 'round with the same teens
And we all got the same dream
Diamonds wet like ice cream
Hit it hard, make a girl scream
Young nigga livin' a dream
Young nigga livin' a dream
Feel like Belly 'cause I'm gettin' cream (money)
(Bands or a kilo, nigga)
Cash rules motherfuckin' everything

(Ay, ay) Me and you not the same
We in a different lane (we in a different lane)
(Uh uh uh) You a fool for even trying to compete with me
Shit I'm doin' you would think it was make believe (for real)
(Ay) Hit her once, late night, then I made her leave
(Ay) Don't forget your purse, girl, don't forget your keys
(Uh) I'm so high right now, I look Japanese
(Ay) If you ain't speakin' facts I don't wanna converse
'Cause (uh)

You know that God come first
You know my family come first (they do)
You know my squad come first
You know the money come first
You know that God come first
You know my family come first (they do)
You know my squad come first
You know the money come first (yeah)
You know that God come first
You know my family come first
You know my squad come first
You know the money come first
You know that God come first
You know my family come first
You know my squad come first
You know the money come first
You know that God come first

Kept me 'round with the same teens
And we all got the same dream
Diamonds wet like ice cream
Hit it hard, make a girl scream
Young nigga livin' a dream
Young nigga livin' a dream
Feel like Belly 'cause I'm gettin' cream
Cash rules motherfuckin' everything

Yeah, he told the jeweler
All my pieces gotta be flooded
Young nigga gotta come correct

Young, but I got my hoes in check
Yeah, homie I'm an A-lister
I don't really worry 'bout niggas (nope)
Fuck a trend, I'ma start a movement
On the rise, nigga on the wave
Y'all better get used to it
Park the Bentley, I'm showin' off
Drop the top just to show it off
My people with me, we don't toast with y'all
Mob stuff, we in overhaul
Everything I'm doin' it's for the team
All I need a little Henny and weed
That's gon put me where I need to be
And I need these hatin' ass niggas to keep
My name out they mouth (my name out they mouth)
I ain't got no time to argue with you, man I got this money to count
We don't politic with these clowns
We straight out that Mississippi mud
These hoes tryna see me right now
I'm sorry, baby, that's a dub

You know that God come first
You know my family come first
You know my squad come first
You know the money come first
You know that God come first
You know my family come first
You know my squad come first
You know the money come first
You know that God come first
You know my family come first
You know my squad come first
You know the money come first
You know that God come first
You know my family come first
You know my squad come first
