

# We

Rae Sremmurd

Yeah  
Word  
Yeah

You grab the Ciroc, you grab the Henny  
We just walked in the building  
You grab the Ace, you grab the Remy  
We just fucked up the party

We brought hoes to the party  
We fuck bad bitches only  
We brought drugs to the party  
We just fucked up the party

She had the nerve to tell me spill the beeeaanns  
So she could grab one or two  
I'm a money making machiiinnne  
Simon says get your shit together  
Do I got girls in here for me? Yessir!  
Is the set in here for me? Yessir!  
Ole Giuseppe stepping motherfucker  
Two girls in wonderland, blowing smoke on one another  
And they talking brand spanking new  
Boy I got the sauce, fuck yo juice (woo woo)  
We killed that swag shit in '93  
Now we got yo whole set body rocking

Look who showed up to crash the party  
Too many cars for valet parking  
Twenty cars deep, we at the party  
Bad bitches only, no local thotties  
We like the girls who go to college  
We let em drink up all the vodka  
Popped a bean, she's talking proper  
Got so high, I almost lost her  
Fell off in the party drunk before it even started  
This the life we chose, drugs, money, models, bottles  
Woo! I'm that Remy drinking motherfucker  
Pop the cork and watch it bubble, let me fill yo cup up  
Girls kissing girls, and they kissing Jimmy  
You not in my section, can you mind your fucking business  
Who gon be my driver when I hit the freeway?  
I grab the styrofoam and mix it like a DJ
