

# Bread And Circus

Raef

Waking up out of bed  
Should I work or should I beg?  
Deep in my eyes, what do I see?  
This is never what I wanted to be  
Telling myself I don't want to go  
Can I stay here just a little more?  
Fine all right, okay whatever  
I have no choice I guess I'll go to my

Bread and circus  
Bread and circus, oh now  
Someone help me out of this mess  
God knows I'm trying my very best  
In the circus I strive to stay alive  
Bread and butter never lie, never lie

Seconds melt, hour by hour  
Another day, another dollar  
It's what you want, not what you need  
Buy one, get another free!  
Grinding stone and grinding hard  
Monopoly and playing cards  
Gotta go home and watch TV  
What more could you want from me?...but my

Bread and circus  
Bread and circus, oh now  
Someone help me out of this mess  
God knows I'm trying my very best  
In the circus I strive to stay alive  
Bread and butter never lie, never lie

Roll your sleeves for paradise  
In the morning the Sun will rise  
Put your trust in the mighty One  
Your battle now has just begun  
You're here now but it won't be long  
Before you know it, we'll all be gone  
Shut them out and close your eyes  
And keep on praying for, for the grand prize

Bread and circus  
Bread and circus, oh now  
Someone help me out of this mess  
God knows I'm trying my very best  
In the circus I strive to stay alive, alive  
Bread and butter never lie, never lie

Spinning and flipping and running so fast  
Trying hard not to be last  
Pick a card, just any card  
I can't see, I hope I'm far

Curtain came down, the little kids frowned  
When the circus came to town  
When the circus came to town  
It was too late to turn around

And he snapped, and we clapped  
And we had too much fun  
But now we're done
