

# One More Night

Raef

The road to heaven, it ain't easy  
You'd think I'd know that bit by now  
But I just keep myself believing  
That I'll find my way somehow  
They told me I'm too young to see it  
You've got your head up in the clouds  
But I can't help myself from feeling  
That hope is alive, for now

Just give me one chance, one night  
I promise I will win this fight  
I've got nothing left in me to lose  
Wanna give my life, my soul to You  
With everything that's going wrong  
Your love is going to make me strong  
I turn to You 'cause nothing's feeling right  
Oh, Allah, just give me one more night

The race is on and forever young  
Sure hope my kids will understand  
These shades of gray ain't going away  
Because nothing ever goes the way we planned  
They tell me I'm too old for dreaming  
They say my time has passed me by  
But I can't keep myself from feeling  
That hope will never die

Just give me one chance, one night  
I promise I will win this fight  
I've got nothing left in me to lose  
Wanna give my life, my soul to You  
With everything that's going wrong  
Your love is going to make me strong  
I turn to You 'cause nothing's feeling right  
Whoa, Allah, just give me one more night

Just give me one chance, one night  
I promise I will win this fight  
I've got nothing left in me to lose  
I've got no more time to lose

Give me one chance, one night  
Promise I will win this fight  
I've got nothing left in me to lose  
Wanna give my life, my soul to You  
With everything that's going wrong  
Love is going to make me strong  
I turn to You 'cause I'm running outta time  
Oh, Allah, just give me one more night
