

# Subhan Allah

Raef

As we awake at dawn  
To His vast kingdom  
We say subhan Allah (glory be to God)  
And as the sun will rise  
And the darkness dies  
We say subhan Allah (glory be to God)  
Waving at the trees  
Dancing with the bees  
We say subhan Allah  
With hearts open wide  
Letting love inside  
We say subhan Allah

All around us everywhere  
It's in front of our eyes  
All glory and praises to be  
Until the end of time

Subhan Allah, subhan Allah (glory be to God)  
The Lord of all glory  
Subhan Allah, Subhan Allah  
What He says will always be

Our story starts with clay  
It's in our DNA  
We say subhan Allah  
So many genes we share  
All the signs are there  
We say subhan Allah  
And what's beneath our skin  
A universe within  
We say subhan Allah  
Under his fading sun  
We are all just one  
We say subhan Allah

All around us everywhere  
It's in front of our eyes  
All glory and praises to be  
Until the end of time

Subhan Allah, subhan Allah  
The Lord of all glory  
Subhan Allah, subhan Allah  
What He says will always be

The love and life You gave this universe  
We're all in praise of You  
Ooo Oooo Oooo  
All glory  
Subhan Allah, subhan Allah  
Subhanaka Ya Rabbee! (Glory be to You my Lord!)

Subhan Allah, subhan Allah  
The Lord of all glory  
Subhan Allah, subhan Allah  
What He says will always be

Subhan Allah, subhan Allah  
Lord of all glory  
Subhan Allah, subhan Allah  
What He says will always be  
All praise and glory
