

Solid Gold

Raekwon

That don't make you solid (Ah, yeah)
Solid like gold (Solid like gold)
You need to let go (Woah)
Might bust your gun but that don't make you solid
Solid (Solid like gold, yeah)
You're hollow inside and I know (Woah, woah)
It ain't in your design, yeah (It's real)
Make you solid

Look hollow on my planet
The brain's thinkin' from the left
I'm smilin', but stealin' all our wrong from the Shaolins
Fly words get sewn together
You know my energy's a teller
A fortune make a room in Venezuela
Blunt's lit, guns on the dick
We smart [?] niggas, yo
A bundle of us, know this the risk
I shine in many parts, [?] is suede
It's like smooth lemonade
With a tap of ginger, yes, I'm a ninja
Regardless of my info, it's meant for
The solids and the kinfolk
Sit down, check what your kin wrote, bro
Knowledge is college, blessings is lessons
Don't be no dumb-dumb-dummy 'cause that don't...

That don't make you solid (Ah, yeah)
Solid like gold (Solid like gold)
You need to let go (Woah)
Might bust your gun but that don't make you solid
Solid (Solid like gold, yeah)
You're hollow inside and I know (Woah, woah)
It ain't in your design, yeah
Make you solid

From blazin' half-moon Caesars in the west with some [?]
They know Shallah, his glow is like fly, fly Benzes
In the midst with hustler style
Every corner is trial, stand for somethin' or get caught in the wild
I used to love gettin' down with the foul
Pullin' hammers in crowds
The shit from yesterday I wish I knew now
It's all bugged out, thugged out
Some in the mountains and some are slugged out
Hit with twenty-five, that ain't live
But still I bow
Praises due, don't fuck with the haters, dude
Add on and drop a few major jewels to save a few
Whether bein' tough and that's how you roll
Just listen to your brother with the scroll
Take these blessings and go, bro (What?)

That don't make you solid (Ah, yeah)
Solid like gold (Solid like gold)
You need to let go (Woah, woah)
Might bust your gun but that don't make you solid (Don't make you solid)

Solid (Solid like gold, solid)
You're hollow inside and I know (Woah, woah)
It ain't in your design, yeah (Woah)
Solid (Ah, yeah)
Solid like gold (Solid like gold)
You need to let go (Woah, woah)
Might bust your gun but that don't make you solid
Solid (Solid like gold, solid)
You're hollow inside and I know (Woah, woah)
It ain't in your design, yeah (Woah)
Don't make you solid
