

# A New Land

Rage

I have a vision in mind  
Leaving our borders behind  
Burns before my inner eye  
My mission before I must die

Let's set the sail, ride the wind  
And our ship will go west  
Till over the edge

Won't you fly with me  
In my dreams, to see  
That our world is made to expand  
Come and sail with me  
On the seven seas  
And explore with me a new land  
A new land

Day after day passing by  
How many men have to die?  
Wandering our lifetime again  
Conquer the world, find new land

Walk in our boots through the night  
Follow the eastern star  
Till over the edge

Won't you fly with me  
In my dreams, to see  
That our world is made to expand?  
Come and sail with me  
On the seven seas  
And explore with me a new land  
A new land

Won't you fly with me  
In my dreams, to see  
That our world is made to expand?  
Come and sail with me  
On the seven seas  
And explore with me a new land  
A new land
