

# All We Know Is Not

Rage

Since the beginning of all time  
There is a universal mind  
That is the source of all there is  
And everything that was will be  
Nothing is lost eternally  
We're just a tiny part of this

We cannot see  
We think we're so much special  
Pretend to be  
A god like ego maniac

Do we really rule this place?  
I don't believe  
'Cause all we know is not  
Our ambitions locked in time and space, you see  
That all we know is not  
Not a single stone will stand the test of time  
'Cause all we know is not  
Not the greatest thought that will survive  
All we are is not

We left our footprints everywhere  
And changed the face of mother earth  
But time will wash it all away

We cannot see  
We think we're so much better  
Pretend to be  
A god like ego maniac

Do we really rule this place?  
I don't believe  
'Cause all we know is not  
Our ambitions locked in time and space, you see  
That all we know is not  
Not a single stone will stand the test of time  
'Cause all we know is not  
Not the greatest thought that will survive  
All we are is not

We cannot see  
We think we're so much better  
Pretend to be  
A god like ego maniac

Do we really rule this place?  
I don't believe  
'Cause all we know is not  
Our ambitions locked in time and space, you see  
That all we know is not  
Not a single stone will stand the test of time  
'Cause all we know is not  
Not the greatest thought that will survive  
All we are is not

All we know is not!

A god like ego maniac

Do we really rule this place?  
I don't believe  
'Cause all we know is not  
Our ambitions locked in time and space, you see  
That all we know is not  
Not a single stone will stand the test of time  
'Cause all we know is not  
Not the greatest thought that will survive  
'Cause all we are is not

All we know is not!  
All we know is not!

All we know is not!
