

# Farewell

Rage

Oh so many memories are rushing through my mind  
Most feel warm but then they really hurt  
'Cause they're gone and won't come back  
The loneliness creeps cold in my life to paralyze my world

All those days and nights go by, we're here without love  
Lost in time, farewell my friend, goodbye  
I can't reach to you no more, a life without love  
Lost in time, farewell my friend, goodbye

Sometimes we will get a glimpse how fragile is our lives  
Then we might regret the things we've done  
How we treat our brother is like how we treat ourselves  
We can't take it back, all this is gone

All those days and nights go by, we're here without love  
Lost in time, farewell my friend, goodbye  
I can't reach to you no more, a life without love  
Lost in time, farewell my friend, goodbye

And we have always failed when it comes to the kill  
'Cause our aggression always wins  
Die and let die, this is the only thing we can  
We will connect to our ancestors - in vain

All those days and nights go by, we're here without love  
Lost in time, farewell my friend, goodbye  
I can't reach to you no more, a life without love  
Lost in time, farewell my man, goodbye
