

## Her Diary's Black Pages

Rage

In her diary's black pages  
The stories end in dark sadness  
And what she never dared to say  
Is in her diary's black pages

She's a magician, she's got second sight  
Sends her mind wandering into the night  
Into the future - stories untold  
Tragedies and accidents - she always knows

In her diary's black pages  
The stories end in dark sadness  
And what she never dared to say  
Is in her diary's black pages

Brother kills brother, family fights  
Fire burns babies while the mother sleeps tight  
Whatever she's dreaming, it's gonna be real  
She couldn't help it when she writes hat she's seen

(She's a magician, she's got second sight  
Sends her mind wandering into the night)

In her diary's black pages  
The stories end in dark sadness  
And what she never dared to say  
Is in her diary's black pages

She's a magician, she's got second sight  
Sends her mind wandering into the night  
Into the future - stories untold  
Tragedies and accidents - she always knows
