

Hunter And Prey

Rage

Hunt you down
I am justified by higher laws
My society gives me right to force
If you put shame on the family
For the honour your blood sets me free, set me free

Try to hide, make my day
I'm the hunter and you are my prey
Time to die, kneel and pray
I'm the hunter and you'll die today
Since the stoneage we have lived this way
We ignore what you acieved today
These traditions we will never clear
Men can rule while women live in fear, live in fear

Try to hide, make my day
I'm the hunter and you are my prey
Man and wife for all your live
I'm the hunter and you are my prey
I'm the hunter and you are my prey

Noone else shall see your face now no more

Try to hide, make my day
I'm the hunter
