

# Innovation

Rage

In my mind I'm searching for a trace  
Something's hidden on these separate ways

Show me that door

You're my innovation, running through my veins  
Endless motivation, needless to explain  
You're my innovation and I'll never let you go

There's an answer (for) almost everything  
All we need is the right questioning

Open my mind

You're my innovation, creeping in my brain  
Endless inspiration, no need to explain  
You're my innovation and I'll never let you go

You're my innovation, running through my veins  
Endless motivation, needless to explain  
You're my innovation and I'll never let you go

You're my innovation, creeping in my brain  
Endless inspiration, no need to explain  
You're my innovation and I'll never let you go  
Yeah
