It's All Too Much

Rage

Endless profit, growth increasing
Top your numbers, I don't care
Liquid gold in black disguising
Endless hunger, I don't care

I don't believe these liars
They ride a dying horse
We all dance on their wires
They never show no remorse

It's all too much, we should tear it all down
It's all too much, now let's rip off their crown

Mass consumption, the stock market
Speculators, I don't care
Global trade, increase indigence
Overpopulation, I don't care

I don't believe those prophets
That speak of a new world order
We all dance to that rhythm
But there is no more borderline

It's all too much, we should tear it all down
It's all too much, now let's rip off their crown

We don't believe your lies, it's all too much (too much)
We all dance on your wires, you never show (no remorse)

I don't believe these liars
They ride a dying horse
We all dance on their wires
They never show no remorse

It's all too much, we should tear it all down
It's all too much, now let's rip off their crown

It's all too much, we should tear it all down
It's all too much, now let's rip off their crown
