

## Justify

## Rage

The last petition for clemency  
Was turned down yesterday  
So now they strap him in that room to die  
The I.V.'s are inserted in his veins  
One in each arm  
The needles that they use are sterilized

And all these efforts for the kill  
Annihilate the life  
That we all take for granted  
Human right

Justify, such a lie  
Tell me why, can we justify  
That they die, that's a lie  
Tell me why, can we justify?  
Can we justify?  
Can we justify?

The poison runs through the body now  
To paralyze his lungs  
The cramps will shake him  
While his heart stands still  
Whatever he had done before  
This killing is just the same  
This cannot be the answer, nothing's healed

And all these efforts for the kill  
Annihilate the life  
That we all take for granted  
Human right

Justify, such a lie  
Tell me why, can we justify  
That they die, that's a lie  
Tell me why, can we justify?  
Can we justify?  
Can we justify?

And all these efforts for the kill  
Annihilate the life  
That we all take for granted  
Human right

Justify, such a lie  
Tell me why, can we justify  
That they die, that's a lie  
Tell me why, can we justify?  
Can we justify?  
Can we justify?

Justify, such a lie  
Tell me why, can we justify  
That they die, that's a lie  
Tell me why, can we justify?  
Can we justify?  
Can we justify?

Who wants to be the one to throw the stone?  
We're choking on revenge, that's all we've known
